FUN FACTS

Wood comes from trees. Some houses are made from wood and so is a lot of furniture. Paper is usually made from wood too.

Rubber comes from a tree called the rubber tree. Car tyres are made from rubber. The rubber in your pencil case isn't made from rubber now, but from something man-made.

Cotton comes from a plant. The English word 'cotton' comes from Arabic. Countries like Egypt are famous for producing cotton.

Leather is used for many things such as shoes, boots, jackets and bags. In the past, people used leather for cups, tents, bottles and many other things. Today most leather comes from cows, but it can come from crocodiles, snakes and other animals.

Wool is a very warm and cool material too. Wool keeps its shape and is great for making trousers, sweaters and jackets. Cashmere is a very soft and expensive wool and comes from cashmere goats. These come from many countries, mainly China.

Remember

The verb 'be: is/are' makes questions with 'Is ...?/Are ...?'.
Other verbs make questions with the helping verb 'Do ...?/Does ...?'.

3 Underline the verbs in the sentences. Change the sentences into questions.

Hi, I had a bad day yesterday. I went to the park with my team to practise playing volleyball. It was a hot day, and we played for five hours. I only had a cup of tea for breakfast. In my backpack, I had a big bag of sweets and a small can of cola. I was wearing my younger brother's trainers because mine were at school. I was also wearing my new woollen sweater because I like it so much. At first, I had a headache, but I didn't stop playing. Then I got very hot, but I didn't stop. Then my feet started to hurt. Then I felt very bad, and I felt dizzy. This is a picture of how I felt!
My friends carried me home. My mum and dad gave me water to drink and put me to bed with a cold towel on my head. My mum made me some soup. I feel better now, but yesterday was a bad day.
